

Accepted Manuscript

Water masses and oceanic eddy regulation of larval fish assemblages along the Cape Verde Frontal Zone

Maik Tiedemann, Heino O. Fock, Julian Döring, Luc Bonaventure Badji, Christian Möllmann

PII: S0924-7963(17)30439-6
DOI: doi:[10.1016/j.jmarsys.2018.03.004](https://doi.org/10.1016/j.jmarsys.2018.03.004)
Reference: MARSYS 3063
To appear in: *Journal of Marine Systems*
Received date: 17 October 2017
Revised date: 5 March 2018
Accepted date: 18 March 2018

The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Marsys(2017), doi:[10.1016/j.jmarsys.2018.03.004](https://doi.org/10.1016/j.jmarsys.2018.03.004)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Water masses and oceanic eddy regulation of larval fish assemblages
