Sensitivity to ocean acidification differs between populations of the Sydney rock oyster: Role of filtration and ion-regulatory capacities

Laura S. Stapp, Laura M. Parker, Wayne A. O'Connor, Christian Bock, Pauline M. Ross, Hans O. Pörtner, G. Lannig

PII: S0141-1136(17)30658-X

DOI: [10.1016/j.marenvres.2017.12.017](https://doi.org/10.1016/j.marenvres.2017.12.017)

Reference: MERE 4427

To appear in: *Marine Environmental Research*

Received Date: 31 October 2017

Revised Date: 13 December 2017

Accepted Date: 17 December 2017

Please cite this article as: Stapp, L.S., Parker, L.M., O'Connor, W.A., Bock, C., Ross, P.M., Pörtner, H.O., Lannig, G., Sensitivity to ocean acidification differs between populations of the Sydney rock oyster: Role of filtration and ion-regulatory capacities, *Marine Environmental Research* (2018), doi: 10.1016/j.marenvres.2017.12.017.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Sensitivity to ocean acidification differs between populations of the Sydney**

2 **Rock oyster: Role of filtration and ion-regulatory capacities**
