Title: Factors determining stomatal and non-stomatal (residual) transpiration and their contribution towards salinity tolerance in contrasting barley genotypes

Authors: Md. Hasanuzzaman, Lana Shabala, Meixue Zhou, Tim J. Brodribb, Ross Corkrey, Sergey Shabala

PII: S0098-8472(18)30594-X
DOI: <https://doi.org/10.1016/j.envexpbot.2018.05.002>
Reference: EEB 3439

To appear in: *Environmental and Experimental Botany*

Received date: 6-11-2017
Revised date: 3-5-2018
Accepted date: 3-5-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Factors determining stomatal and non-stomatal (residual) transpiration and their contribution towards salinity tolerance in contrasting barley genotypes
