Accepted Manuscript

Ion chromatography tandem mass spectrometry (IC-MS/MS) multimethod for the determination of highly polar pesticides in plant-derived commodities

Anna Bauer, Jens Luetjohann, Sascha Rohn, Jürgen Kuballa, Eckard Jantzen

PII: S0956-7135(17)30529-7

DOI: 10.1016/j.foodcont.2017.11.007

Reference: JFCO 5853

To appear in: Food Control

Received Date: 11 July 2017

Revised Date: 17 September 2017 Accepted Date: 3 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
