Please cite this article as: Nam Hee Kim, Na Young Lee, Hye Won Kim, Tae Jin Cho, In Sun Joo, Eun Jung Heo, Min Suk Rhee , Microbiological criteria and ecology of commercially available processed cheeses according to the product specification and physicochemical characteristics. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Food Research International* (2017), <https://doi.org/10.1016/j.foodres.2018.01.014>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Microbial community of commercially processed cheese products

**Microbiological criteria and ecology of commercially available processed cheeses
according to the product specification and physicochemical characteristics**
