

## Accepted Manuscript

The effects of microfluidization on rheological and textural properties of gluten-free corn breads

Oguz Kaan Ozturk, Behic Mert

PII: S0963-9969(17)30862-1  
DOI: [doi:10.1016/j.foodres.2017.12.008](https://doi.org/10.1016/j.foodres.2017.12.008)  
Reference: FRIN 7214  
To appear in: *Food Research International*  
Received date: 31 August 2017  
Revised date: 29 November 2017  
Accepted date: 2 December 2017

Please cite this article as: Oguz Kaan Ozturk, Behic Mert , The effects of microfluidization on rheological and textural properties of gluten-free corn breads. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Food Research International* (2017), doi:[10.1016/j.foodres.2017.12.008](https://doi.org/10.1016/j.foodres.2017.12.008)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
