Groundwater spring potential modelling: comprising the capability and robustness of three different modeling approaches

Omid Rahmati, Seyed Amir Naghibi, Himan Shahabi, Dieu Tien Bui, Biswajeet Pradhan, Ali Azareh, Elham Rafiei-Sardooi, Aliakbar Nazari Samani, Assefa M. Melesse

PII: S0022-1694(18)30622-X  
DOI: <https://doi.org/10.1016/j.jhydrol.2018.08.027>  
Reference: HYDROL 23041

To appear in: *Journal of Hydrology*

Received Date: 26 February 2018  
Revised Date: 9 August 2018  
Accepted Date: 11 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
