Skill assessment of a seasonal forecast model to predict drought events for water resource systems

Jaime Madrigal, Abel Solera, Sara Suárez-Almiñana, Javier Paredes-Arquiola, Joaquín Andreu, Sonia T. Sánchez-Quispe

PII: S0022-1694(18)30560-2
DOI: <https://doi.org/10.1016/j.jhydrol.2018.07.046>
Reference: HYDROL 22978

To appear in: *Journal of Hydrology*

Received Date: 8 February 2018
Revised Date: 16 July 2018
Accepted Date: 17 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Skill assessment of a seasonal forecast model to predict drought events for water resource systems
