Achilles' Heel of Integrated Hydrologic Models: the Stream-Aquifer Flow Exchange, and Proposed Alternative

Hubert J. Morel-Seytoux, Calvin D. Miller, Steffen Mehl, Cinzia Miracapillo

PII: S0022-1694(18)30515-8
DOI: <https://doi.org/10.1016/j.jhydrol.2018.07.010>
Reference: HYDROL 22942

To appear in: *Journal of Hydrology*

Received Date: 14 March 2018
Revised Date: 2 June 2018
Accepted Date: 5 July 2018

Please cite this article as: Morel-Seytoux, H.J., Miller, C.D., Mehl, S., Miracapillo, C., Achilles' Heel of Integrated Hydrologic Models: the Stream-Aquifer Flow Exchange, and Proposed Alternative, *Journal of Hydrology* (2018), doi: <https://doi.org/10.1016/j.jhydrol.2018.07.010>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Achilles' Heel of Integrated Hydrologic Models:
the Stream-Aquifer Flow Exchange, and Proposed Alternative
