A Modeling Framework for Evaluating the Drought Resilience of a Surface Water Supply System under Non-stationarity

Gang Zhao, Huilin Gao, Shih-Chieh Kao, Nathalie Voisin, Bibi S. Naz

PII: S0022-1694(18)30364-0

DOI: <https://doi.org/10.1016/j.jhydrol.2018.05.037>

Reference: HYDROL 22814

To appear in: *Journal of Hydrology*

Received Date: 3 January 2018

Revised Date: 7 April 2018

Accepted Date: 15 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A Modeling Framework for Evaluating the Drought Resilience of a Surface Water Supply System under Non- stationarity
