Stream water quality affected by interacting hydrological and biogeochemical processes in a riparian wetland

Christina Weyer, Stefan Peiffer, Gunnar Lischeid

PII: S0022-1694(18)30394-9

DOI: <https://doi.org/10.1016/j.jhydrol.2018.05.067>

Reference: HYDROL 22844

To appear in: *Journal of Hydrology*

Received Date: 11 September 2017

Revised Date: 27 May 2018

Accepted Date: 29 May 2018

Please cite this article as: Weyer, C., Peiffer, S., Lischeid, G., Stream water quality affected by interacting hydrological and biogeochemical processes in a riparian wetland, *Journal of Hydrology* (2018), doi: <https://doi.org/10.1016/j.jhydrol.2018.05.067>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Stream water quality affected by interacting hydrological and biogeochemical processes in a riparian wetland
