Hydrologic Design of Water Harvesting Structures through Simulation-Optimization Framework

Vamsikrishna Vema, K.P. Sudheer, I. Chaubey

PII: S0022-1694(18)30442-6

DOI: <https://doi.org/10.1016/j.jhydrol.2018.06.020>

Reference: HYDROL 22869

To appear in: *Journal of Hydrology*

Received Date: 1 February 2018

Revised Date: 4 June 2018

Accepted Date: 8 June 2018

Please cite this article as: Vema, V., Sudheer, K.P., Chaubey, I., Hydrologic Design of Water Harvesting Structures through Simulation-Optimization Framework, *Journal of Hydrology* (2018), doi: <https://doi.org/10.1016/j.jhydrol.2018.06.020>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
