Impact of urbanization on groundwater recharge rates in Dübendorf, Switzerland

Morgane Minnig, Christian Moeck, Dirk Radny, Mario Schirmer

PII: S0022-1694(17)30662-5

DOI: <https://doi.org/10.1016/j.jhydrol.2017.09.058>

Reference: HYDROL 22278

To appear in: *Journal of Hydrology*

Please cite this article as: Minnig, M., Moeck, C., Radny, D., Schirmer, M., Impact of urbanization on groundwater recharge rates in Dübendorf, Switzerland, *Journal of Hydrology* (2017), doi: <https://doi.org/10.1016/j.jhydrol.2017.09.058>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Impact of urbanization on groundwater recharge rates in Dübendorf, Switzerland
