Solute transport along a single fracture with a finite extent of matrix: A new simple solution and temporal moment analysis

Shuo Meng, Longcheng Liu, Batoul Mahmoudzadeh, Ivars Neretnieks, Luis Moreno

PII: S0022-1694(18)30343-3
DOI: <https://doi.org/10.1016/j.jhydrol.2018.05.016>
Reference: HYDROL 22793

To appear in: *Journal of Hydrology*

Received Date: 30 November 2017
Revised Date: 4 May 2018
Accepted Date: 6 May 2018

Please cite this article as: Meng, S., Liu, L., Mahmoudzadeh, B., Neretnieks, I., Moreno, L., Solute transport along a single fracture with a finite extent of matrix: A new simple solution and temporal moment analysis, *Journal of Hydrology* (2018), doi: <https://doi.org/10.1016/j.jhydrol.2018.05.016>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Solute transport along a single fracture with a finite extent of
matrix: A new simple solution and temporal moment analysis**
