Identification of Watershed Priority Management Areas Under Water Quality Constraints: A Simulation-Optimization Approach with Ideal Load Reduction

Feifei Dong, Yong Liu, Zhen Wu, Yihui Chen, Huaicheng Guo

PII: S0022-1694(18)30360-3

DOI: <https://doi.org/10.1016/j.jhydrol.2018.05.033>

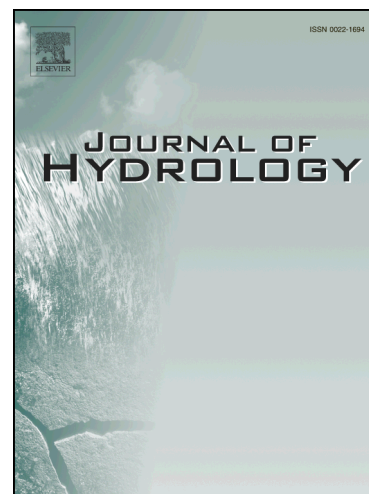

Reference: HYDROL 22810

To appear in: *Journal of Hydrology*

Received Date: 5 February 2018

Revised Date: 18 April 2018

Accepted Date: 12 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Identification of Watershed Priority Management Areas Under Water Quality Constraints: A Simulation- Optimization Approach with Ideal Load Reduction
