Spatial prediction of near surface soil water retention functions using hydrogeophysics and empirical orthogonal functions

Justin Gibson, Trenton E. Franz

PII: S0022-1694(18)30212-9
DOI: https://doi.org/10.1016/j.jhydrol.2018.03.046
Reference: HYDROL 22679

To appear in: *Journal of Hydrology*

Received Date: 11 October 2017
Revised Date: 13 March 2018
Accepted Date: 17 March 2018

Please cite this article as: Gibson, J., Franz, T.E., Spatial prediction of near surface soil water retention functions using hydrogeophysics and empirical orthogonal functions, *Journal of Hydrology* (2018), doi: https://doi.org/10.1016/j.jhydrol.2018.03.046

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Spatial prediction of near surface soil water retention functions using hydrogeophysics and empirical orthogonal functions

Justin Gibson[1,*], Trenton E. Franz[1]
