Impacts of different rainfall patterns on hyporheic zone under transient conditions

Suning Liu, Ting Fong May Chui

PII: S0022-1694(18)30272-5  
DOI: <https://doi.org/10.1016/j.jhydrol.2018.04.019>  
Reference: HYDROL 22722

To appear in: *Journal of Hydrology*

Received Date: 26 October 2017  
Revised Date: 2 March 2018  
Accepted Date: 6 April 2018

Please cite this article as: Liu, S., Chui, T.F.M., Impacts of different rainfall patterns on hyporheic zone under transient conditions, *Journal of Hydrology* (2018), doi: <https://doi.org/10.1016/j.jhydrol.2018.04.019>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
