Modelling hydrologic and hydrodynamic processes in basins with large semi-arid wetlands

Ayan Fleischmann, Vinícius Siqueira, Adrien Paris, Walter Collischonn, Rodrigo Paiva, Paulo Pontes, Jean-François Crétaux, Muriel Bergé-Nguyen, Sylvain Biancamaria, Marielle Gosset, Stephane Calmant, Bachir Tanimoun

PII: S0022-1694(18)30294-4
DOI: <https://doi.org/10.1016/j.jhydrol.2018.04.041>
Reference: HYDROL 22744

To appear in: *Journal of Hydrology*

Received Date: 30 August 2017
Revised Date: 13 April 2018
Accepted Date: 16 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
