### Accepted Manuscript

#### Research papers

Greenhouse gas scenario sensitivity and uncertainties in precipitation projections for central Belgium

E. Van Uytven, P. Willems

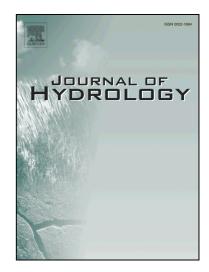

PII: S0022-1694(18)30018-0

DOI: https://doi.org/10.1016/j.jhydrol.2018.01.018

Reference: HYDROL 22500

To appear in: Journal of Hydrology

Received Date: 10 July 2017 Revised Date: 4 December 2017 Accepted Date: 8 January 2018

Please cite this article as: Uytven, E.V., Willems, P., Greenhouse gas scenario sensitivity and uncertainties in precipitation projections for central Belgium, *Journal of Hydrology* (2018), doi: https://doi.org/10.1016/j.jhydrol. 2018.01.018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **ACCEPTED MANUSCRIPT**

Greenhouse gas scenario sensitivity and uncertainties in precipitation projections for central Belgium
