A Novel Analytical Solution for Estimating Aquifer Properties within a Horizontally Anisotropic Aquifer Bounded by a Stream

Yibin Huang, Hongbin Zhan, Peter Knappett

PII: S0022-1694(18)30181-1

DOI: <https://doi.org/10.1016/j.jhydrol.2018.03.014>

Reference: HYDROL 22647

To appear in: *Journal of Hydrology*

Received Date: 18 July 2017

Revised Date: 23 February 2018

Accepted Date: 5 March 2018

Please cite this article as: Huang, Y., Zhan, H., Knappett, P., A Novel Analytical Solution for Estimating Aquifer Properties within a Horizontally Anisotropic Aquifer Bounded by a Stream, *Journal of Hydrology* (2018), doi: <https://doi.org/10.1016/j.jhydrol.2018.03.014>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A Novel Analytical Solution for Estimating Aquifer Properties within a Horizontally Anisotropic Aquifer Bounded by a Stream

A revised manuscript submitted to *Journal of Hydrology*
