Global assessment of predictability of water availability: a bivariate probabilistic Budyko analysis

Weiguang Wang, Jianyu Fu

PII: S0022-1694(17)30896-X
DOI: <https://doi.org/10.1016/j.jhydrol.2017.12.068>
Reference: HYDROL 22479

To appear in: *Journal of Hydrology*

Received Date: 26 July 2017
Revised Date: 23 December 2017
Accepted Date: 27 December 2017

Please cite this article as: Wang, W., Fu, J., Global assessment of predictability of water availability: a bivariate probabilistic Budyko analysis, *Journal of Hydrology* (2017), doi: <https://doi.org/10.1016/j.jhydrol.2017.12.068>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Global assessment of predictability of water availability: a bivariate probabilistic Budyko analysis
