Changes in surface air temperature over China under the 1.5 and 2.0 °C global warming targets

Fu Yuan-Hai, Lu Ri-Yu, Guo Dong

PII: S1674-9278(17)30115-6

DOI: [10.1016/j.accre.2017.12.001](https://doi.org/10.1016/j.accre.2017.12.001)

Reference: ACCRE 116

To appear in: *Advances in Climate Change Research*

Received Date: 27 September 2017

Revised Date: 16 November 2017

Accepted Date: 13 December 2017

Please cite this article as: Yuan-Hai, F., Ri-Yu, L., Dong, G., Changes in surface air temperature over China under the 1.5 and 2.0 °C global warming targets, *Advances in Climate Change Research* (2018), doi: 10.1016/j.accre.2017.12.001.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Changes in surface air temperature over China under the 1.5 and 2.0 °C
global warming targets**
