Numerical analysis of coupled liquid water, vapor, stress and heat transport in unsaturated freezing soil

Xiao Yin, Enlong Liu, Bingtang Song, De Zhang

PII: S0165-232X(18)30013-2
DOI: doi:[10.1016/j.coldregions.2018.07.008](https://doi.org/10.1016/j.coldregions.2018.07.008)
Reference: COLTEC 2625
To appear in: *Cold Regions Science and Technology*
Received date: 11 January 2018
Revised date: 11 May 2018
Accepted date: 19 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Numerical analysis of coupled liquid water, vapor, stress and heat transport in unsaturated freezing soil
