Experimental study on gravitational erosion process of vegetation slope under freeze–thaw

Dahu Rui, Mingchang Ji, Dai Nakamura, Teruyuki Suzuki

PII: S0165-232X(17)30099-X
DOI: doi:[10.1016/j.coldregions.2018.03.020](https://doi.org/10.1016/j.coldregions.2018.03.020)
Reference: COLTEC 2560
To appear in: *Cold Regions Science and Technology*
Received date: 28 February 2017
Revised date: 25 January 2018
Accepted date: 22 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Experimental study on gravitational erosion process of vegetation slope
under freeze–thaw**
