Paleoseismic observations along the Langshan range-front fault, Hetao Basin, China: Tectonic and seismic implications

Shaopeng Dong, Peizhen Zhang, Wenjun Zheng, Zhongyuan Yu, Qiyun Lei, Huili Yang, Jinfeng Liu, Huilin Gong

PII: S0040-1951(18)30078-7
DOI: doi:[10.1016/j.tecto.2018.02.012](https://doi.org/10.1016/j.tecto.2018.02.012)
Reference: TECTO 127784
To appear in: *Tectonophysics*
Received date: 21 April 2017
Revised date: 13 February 2018
Accepted date: 14 February 2018

The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Tecto(2017), doi:[10.1016/j.tecto.2018.02.012](https://doi.org/10.1016/j.tecto.2018.02.012)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Paleoseismic Observations along the Langshan Range-front Fault, Hetao Basin, China: tectonic and seismic implications
