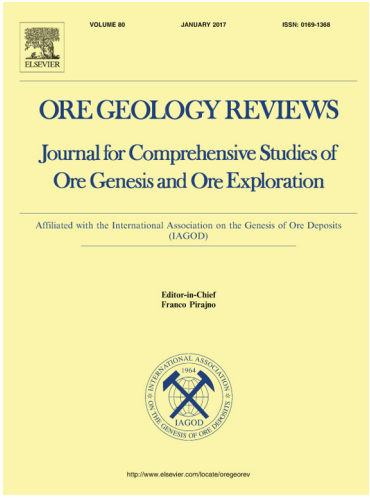
Accepted Manuscript



In situ major-, trace-elements and Sr-Nd isotopic compositions of apatite from the Luming porphyry Mo deposit, NE China: Constraints on the petrogenetic-metallogenic features

Lei Chen, Yong Zhang

PII: S0169-1368(17)30738-2
DOI: https://doi.org/10.1016/j.oregeorev.2018.01.026
Reference: OREGEO 2471

To appear in: *Ore Geology Reviews*

Received Date: 30 September 2017
Revised Date: 18 January 2018
Accepted Date: 21 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
