Geochemical investigation of the Lower Cambrian mineralised black shales of South China and the Late Devonian Nick Deposit, Canada

Anais Pagès, Steve Barnes, Susanne Schmid, Raymond M. Coveney Jr., Lorenz Schwark, Weihua Liu, Kliti Grice, Haifeng Fan, Hanjie Wen

PII: S0169-1368(17)30801-6
DOI: <https://doi.org/10.1016/j.oregeorev.2018.02.004>
Reference: OREGEO 2483

To appear in: *Ore Geology Reviews*

Received Date: 23 October 2017
Revised Date: 23 January 2018
Accepted Date: 2 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
