Geology, geochronology and geochemistry of the Dabate Cu–Mo deposit, northern Chinese Tien Shan: Implications for spatial separation of copper and molybdenum mineralization

Chang Liu, Chunji Xue, Guoxiang Chi, Xiaobo Zhao, Ye Li

PII: S0169-1368(17)30551-6

DOI: <https://doi.org/10.1016/j.oregeorev.2017.12.002>

Reference: OREGEO 2422

To appear in: *Ore Geology Reviews*

Received Date: 20 July 2017

Revised Date: 15 November 2017

Accepted Date: 4 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
