Carbonated mantle domains at the base of the Earth's transition zone

Wei-dong Sun, Chris J. Hawkesworth, Chao Yao, Chan-chan Zhang, Rui-fang Huang, Xi Liu, Xin-lei Sun, Trevor Ireland, Mao-shuang Song, Ming-xing Ling, Xing Ding, Zhao-feng Zhang, Wei-ming Fan, Zhong-qing Wu

PII: S0009-2541(17)30430-8  
DOI: doi: [10.1016/j.chemgeo.2017.08.001](https://doi.org/10.1016/j.chemgeo.2017.08.001)  
Reference: CHEMGE 18429

To appear in: *Chemical Geology*

Received date: 5 May 2017  
Revised date: 31 July 2017  
Accepted date: 2 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
