Variations and controls of iron oxides and isotope compositions during paddy soil evolution over a millennial time scale

Lai-Ming Huang, Xiao-Xu Jia, Gan-Lin Zhang, Aaron Thompson, Fang Huang, Min-An Shao, Liu-Mei Chen

PII: S0009-2541(17)30660-5  
DOI: doi:[10.1016/j.chemgeo.2017.11.030](https://doi.org/10.1016/j.chemgeo.2017.11.030)  
Reference: CHEMGE 18558  
To appear in: *Chemical Geology*  
Received date: 17 January 2017  
Revised date: 11 August 2017  
Accepted date: 23 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
