Dual-phase mass balance modeling of small mineral particle losses from sedimentary rock-derived soils

Carleton R. Bern, Tiffany Yesavage

PII: S0009-2541(17)30670-8
DOI: [doi:10.1016/j.chemgeo.2017.11.040](https://doi.org/10.1016/j.chemgeo.2017.11.040)
Reference: CHEMGE 18568
To appear in: *Chemical Geology*
Received date: 13 July 2017
Revised date: 10 October 2017
Accepted date: 27 November 2017

Chemge(2017), doi:[10.1016/j.chemgeo.2017.11.040](https://doi.org/10.1016/j.chemgeo.2017.11.040)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Dual-phase mass balance modeling of small mineral particle losses from sedimentary rock-derived soils

Carleton R. Bern^{1,2*} and Tiffany Yesavage²
