

## Accepted Manuscript

A seasonal source and sink of nitrous oxide in mangroves: insights from concentration, isotope, and isotopomer measurements

Rachel Murray, Dirk Erler, Judith Rosentreter, Damien Maher, Bradley Eyre

PII: S0016-7037(18)30379-X  
DOI: <https://doi.org/10.1016/j.gca.2018.07.003>  
Reference: GCA 10834

To appear in: *Geochimica et Cosmochimica Acta*

Received Date: 18 October 2016  
Accepted Date: 3 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A seasonal source and sink of nitrous oxide in mangroves: insights from  
concentration, isotope, and isotopomer measurements**
