Effects of atmospheric composition on apparent activation energy of silicate weathering: I. Model formulation

Yoshiki Kanzaki, Takashi Murakami

PII: S0016-7037(17)30671-3
DOI: <https://doi.org/10.1016/j.gca.2017.10.008>
Reference: GCA 10513

To appear in: *Geochimica et Cosmochimica Acta*

Received Date: 28 September 2016
Accepted Date: 9 October 2017

Please cite this article as: Kanzaki, Y., Murakami, T., Effects of atmospheric composition on apparent activation energy of silicate weathering: I. Model formulation, *Geochimica et Cosmochimica Acta* (2017), doi: <https://doi.org/10.1016/j.gca.2017.10.008>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Effects of atmospheric composition on apparent activation
energy of silicate weathering: I. Model formulation**
