Oxygen isotope systematics of chondrules in the Murchison CM2 chondrite and implications for the CO-CM relationship

Noël Chaumard, Céline Defouilloy, Noriko T. Kita

PII: S0016-7037(18)30122-4
DOI: <https://doi.org/10.1016/j.gca.2018.02.040>
Reference: GCA 10683

To appear in: *Geochimica et Cosmochimica Acta*

Received Date: 9 June 2017
Accepted Date: 23 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Oxygen isotope systematics of chondrules in the Murchison CM2 chondrite and implications for the CO-CM relationship

Noël Chaumard^{a,*}, Céline Defouilloy^a, Noriko T. Kita^a

^a*WiscSIMS, Department of Geoscience, University of Wisconsin-Madison, 1215 W. Dayton Street, Madison, WI 53706-1692, USA*

Submitted to *Geochimica et Cosmochimica Acta*
June 8, 2017.
Second revised manuscript, February 18, 2018

*Corresponding author. E-mail: chaumard@wisc.edu

Keywords: Carbonaceous chondrites, chondrules, oxygen three-isotope measurements, SIMS analyses
