Montmorillonite dissolution kinetics: experimental and reactive transport modeling interpretation

Chiara Cappelli, Shingo Yokoyama, Jordi Cama, F. Javier Huertas

PII: S0016-7037(18)30069-3
DOI: <https://doi.org/10.1016/j.gca.2018.01.039>
Reference: GCA 10642

To appear in: *Geochimica et Cosmochimica Acta*

Received Date: 24 May 2017
Accepted Date: 30 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Montmorillonite dissolution kinetics: experimental and reactive transport modeling interpretation

Chiara CAPPELLI^{1*}, Shingo YOKOYAMA², Jordi CAMA^{3,4*} and F. Javier HUERTAS¹
