Sulfur diffusion in dacitic melt at various oxidation states: Implications for volcanic degassing

Matthias Bernhard Lierenfeld, Zoltán Zajacz, Olivier Bachmann, Peter Ulmer

PII: S0016-7037(18)30045-0
DOI: <https://doi.org/10.1016/j.gca.2018.01.026>
Reference: GCA 10629

To appear in: *Geochimica et Cosmochimica Acta*

Received Date: 22 February 2017
Accepted Date: 18 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Sulfur diffusion in dacitic melt at various oxidation states:
Implications for volcanic degassing
