Experimental estimation of the bisulfite isomer quotient as a function of temperature: Implications for sulfur isotope fractionations in aqueous sulfite solutions

D.L. Eldridge, B.O. Mysen, G.D. Cody

PII: S0016-7037(17)30657-9

DOI: <https://doi.org/10.1016/j.gca.2017.10.005>

Reference: GCA 10510

To appear in: *Geochimica et Cosmochimica Acta*

Received Date: 1 June 2017

Accepted Date: 6 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Experimental estimation of the bisulfite isomer quotient as a function of temperature: Implications
for sulfur isotope fractionations in aqueous sulfite solutions**
