

Accepted Manuscript

Sulfate-reducing bacteria influence the nucleation and growth of mackinawite and greigite

Aude Picard, Amy Gartman, David R. Clarke, Peter R. Girguis

PII: S0016-7037(17)30658-0
DOI: <https://doi.org/10.1016/j.gca.2017.10.006>
Reference: GCA 10511

To appear in: *Geochimica et Cosmochimica Acta*

Received Date: 22 February 2017
Accepted Date: 9 October 2017

Please cite this article as: Picard, A., Gartman, A., Clarke, D.R., Girguis, P.R., Sulfate-reducing bacteria influence the nucleation and growth of mackinawite and greigite, *Geochimica et Cosmochimica Acta* (2017), doi: <https://doi.org/10.1016/j.gca.2017.10.006>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Sulfate-reducing bacteria influence the nucleation and growth of mackinawite and greigite
