

Author's Accepted Manuscript

Sensitivity analysis of sediment flux derived by laser diffraction and acoustic backscatter within a reservoir

Stefan Haun, Laura Lizano

www.elsevier.com/locate/ijsrc

PII: S1001-6279(18)30014-3
DOI: <https://doi.org/10.1016/j.ijsrc.2018.01.001>
Reference: IJSRC158

To appear in: *International Journal of Sediment Research*

Received date: 26 August 2016
Revised date: 21 November 2017
Accepted date: 17 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Sensitivity analysis of sediment flux derived by laser diffraction and acoustic backscatter within a reservoir

Sensitivity analysis of sediment flux derived by laser diffraction and acoustic backscatter within a reservoir
