Geochronology and geochemistry of the granites from the Zhuxi W-Cu ore deposit in South China: Implication for petrogenesis, geodynamical setting and mineralization

Xiaofei Pan, Zengqian Hou, Miao Zhao, Guohua Chen, Jianfeng Rao, Yan Li, Jin Wei, Yongpeng Ouyang

PII: S0024-4937(18)30018-5

DOI: <https://doi.org/10.1016/j.lithos.2018.01.014>

Reference: LITHOS 4541

To appear in:

Received date: 17 August 2017

Accepted date: 13 January 2018

Please cite this article as: Xiaofei Pan, Zengqian Hou, Miao Zhao, Guohua Chen, Jianfeng Rao, Yan Li, Jin Wei, Yongpeng Ouyang , Geochronology and geochemistry of the granites from the Zhuxi W-Cu ore deposit in South China: Implication for petrogenesis, geodynamical setting and mineralization. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Lithos(2018), <https://doi.org/10.1016/j.lithos.2018.01.014>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Geochronology and geochemistry of the granites from the Zhuxi W–Cu ore deposit in South China: implication for petrogenesis, geodynamical setting and mineralization
