

## Accepted Manuscript

Petrogenesis of the Late Triassic diorites in the Hoh Xil area, northern Tibet: Insights into the origin of the high-Mg# andesitic signature of continental crust

Jun Wang, Guo-Ning Gou, Qiang Wang, Chunfu Zhang, Wei Dan, Derek A. Wyman, Xiu-Zheng Zhang

PII: S0024-4937(17)30430-9  
DOI: doi:[10.1016/j.lithos.2017.12.007](https://doi.org/10.1016/j.lithos.2017.12.007)  
Reference: LITHOS 4506

To appear in:

Received date: 1 September 2017  
Accepted date: 8 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
