

## Accepted Manuscript

Climate forcing of regionally-coherent extreme storm impact and recovery on embayed beaches

Olivier Burvingt, Gerd Masselink, Tim Scott, Mark Davidson, Paul Russell

PII: S0025-3227(17)30602-3  
DOI: doi:[10.1016/j.margeo.2018.04.004](https://doi.org/10.1016/j.margeo.2018.04.004)  
Reference: MARGO 5781  
To appear in: *Marine Geology*  
Received date: 13 December 2017  
Revised date: 30 March 2018  
Accepted date: 10 April 2018

Please cite this article as: Olivier Burvingt, Gerd Masselink, Tim Scott, Mark Davidson, Paul Russell, Climate forcing of regionally-coherent extreme storm impact and recovery on embayed beaches. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Climate forcing of regionally-  
coherent extreme storm impact and  
recovery on embayed beaches

Olivier Burvingt, Gerd Masselink, Tim Scott, Mark Davidson and Paul  
Russell.
