

Accepted Manuscript

SWAT model uncertainty analysis, calibration and validation for runoff simulation in the Luvuvhu river catchment, South Africa

M.P. Thavhana, M.J. Savage, M.E. Moeletsi

PII: S1474-7065(17)30091-8

DOI: [10.1016/j.pce.2018.03.012](https://doi.org/10.1016/j.pce.2018.03.012)

Reference: JPCE 2673

To appear in: *Physics and Chemistry of the Earth*

Received Date: 10 April 2017

Revised Date: 21 January 2018

Accepted Date: 22 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
