Changes in ecosystem services associated with planting structures of cropland: a case study in Minle County in China

Yaqun Liu, Wei Song, Fengyun Mu

PII: S1474-7065(17)30001-3

DOI: [10.1016/j.pce.2016.09.003](https://doi.org/10.1016/j.pce.2016.09.003)

Reference: JPCE 2547

To appear in: *Physics and Chemistry of the Earth*

Received Date: 24 May 2016

Revised Date: 15 August 2016

Accepted Date: 19 September 2016

Please cite this article as: Liu, Y., Song, W., Mu, F., Changes in ecosystem services associated with planting structures of cropland: a case study in Minle County in China, *Physics and Chemistry of the Earth* (2017), doi: 10.1016/j.pce.2016.09.003.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
