### Accepted Manuscript

Epithermal deposits in South China: Geology, geochemistry, geochronology and tectonic setting

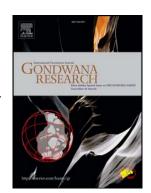

Jun Zhong, Franco Pirajno, Yan-Jing Chen

PII: S1342-937X(16)30316-1 DOI: doi: 10.1016/j.gr.2016.10.008

Reference: GR 1693

To appear in: Gondwana Research

Received date: 13 July 2016 Revised date: 11 October 2016 Accepted date: 27 October 2016

Please cite this article as: Zhong, Jun, Pirajno, Franco, Chen, Yan-Jing, Epithermal deposits in South China: Geology, geochemistry, geochronology and tectonic setting, *Gondwana Research* (2016), doi: 10.1016/j.gr.2016.10.008

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
