3D geological modeling for complex aquifer system conception and groundwater storage assessment: case of Sisseb El Alem Nadhour Saouaf basin, northeastern Tunisia

Mohamed Hamdi, Mohamed Faouzi Zagrarni, Najib Djamai, Hamza Jerbi, Kalifa Goita, Jamila Tarhouni

PII: S1464-343X(18)30077-3
DOI: 10.1016/j.jafrearsci.2018.03.017
Reference: AES 3169
To appear in: *Journal of African Earth Sciences*
Received Date: 04 August 2017
Revised Date: 10 March 2018
Accepted Date: 13 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
