Geochemical constraints on the provenance and depositional environment of the Messinian sediments, onshore Nile Delta, Egypt: Implications for the late Miocene paleogeography of the Mediterranean

Mahmoud Leila, Andrea Moscariello, Branimir Šegvić

PII: S1464-343X(18)30084-0

DOI: [10.1016/j.jafrearsci.2018.03.024](https://doi.org/10.1016/j.jafrearsci.2018.03.024)

Reference: AES 3176

To appear in: *Journal of African Earth Sciences*

Received Date: 11 September 2017

Revised Date: 17 March 2018

Accepted Date: 20 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Geochemical constraints on the provenance and depositional environment of the Messinian sediments, onshore Nile Delta, Egypt: Implications for the Late Miocene paleogeography of the Mediterranean
