Late-Grenvillian channel flow in the central Grenville Province (Manicouagan Reservoir area): New constraints from a structural and geochronological study of the Allochthon Boundary Thrust

Sophie Jannin, Félix Gervais, Abdelali Moukhsil, Lars Eiving Augland

PII: S0191-8141(18)30280-3

DOI: [10.1016/j.jsg.2018.07.019](https://doi.org/10.1016/j.jsg.2018.07.019)

Reference: SG 3714

To appear in: *Journal of Structural Geology*

Received Date: 4 December 2017

Revised Date: 14 July 2018

Accepted Date: 20 July 2018

Please cite this article as: Jannin, S., Gervais, Fé., Moukhsil, A., Augland, L.E., Late-Grenvillian channel flow in the central Grenville Province (Manicouagan Reservoir area): New constraints from a structural and geochronological study of the Allochthon Boundary Thrust, *Journal of Structural Geology* (2018), doi: 10.1016/j.jsg.2018.07.019.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Late-Grenvillian channel flow in the central Grenville Province (Manicouagan Reservoir**
2 **area): new constraints from a structural and geochronological study of the Allochthon**
3 **Boundary Thrust**
