Structural evolution of salt-influenced fold-and-thrust belts: A synthesis and new insights from basins containing isolated salt diapirs

Oliver B. Duffy, Tim P. Dooley, Michael R. Hudec, Martin P.A. Jackson, Naiara Fernandez, Christopher A-L. Jackson, Juan I. Soto

PII: S0191-8141(18)30243-8

DOI: [10.1016/j.jsg.2018.06.024](https://doi.org/10.1016/j.jsg.2018.06.024)

Reference: SG 3695

To appear in: *Journal of Structural Geology*

Received Date: 30 April 2018

Revised Date: 28 June 2018

Accepted Date: 29 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
