

## Accepted Manuscript

Sensitivity of galvanic and inductive Induced Polarization methods to the Cole-Cole parameters

Salvador García-Fiscal, Carlos Flores

PII: S0926-9851(17)30304-X  
DOI: doi:[10.1016/j.jappgeo.2018.05.008](https://doi.org/10.1016/j.jappgeo.2018.05.008)  
Reference: APPGEO 3517

To appear in:

Received date: 28 March 2017  
Revised date: 5 February 2018  
Accepted date: 11 May 2018

Please cite this article as: Salvador García-Fiscal, Carlos Flores , Sensitivity of galvanic and inductive Induced Polarization methods to the Cole-Cole parameters. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Appgeo(2017), doi:[10.1016/j.jappgeo.2018.05.008](https://doi.org/10.1016/j.jappgeo.2018.05.008)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
